

Mt. Carmel, Utah.
May 21, 1950.

Mr. Harold A. Linke, State Engineer,
State Capitol, Salt Lake City, Utah.

RE: WATER COMMISSIONER
FOR EAST FORK OF
VIRGIN RIVER.

Dear Sir:

I am sending herewith the minutes of the meeting of water users of the Virgin River East Fork which was held pursuant to the notice sent out from your office. I was called out of town that day and didn't get to the meeting myself. The minutes of the meeting was taken by Warren Foote but they were handed to me unsigned.

You will note that Sharon C. Lamb of Mt. Carmel, Utah, is being recommended for your appointment as water Commissioner. Mr. Lamb is about 25 years old, is a high school graduate and an ex-serviceman. He has never served as water commissioner before and has had no experience in measuring and distributing water as yet but we have other men here who have done the job before who will go with him and help him get started on the job. I feel sure that he is willing and capable to do the work.

I am also inclosing a check for \$5.00 to pay the premium on his bond for 1950.

Yours truly,

Bert Gardner

minutes of

meeting of water users of East Fork of Virgin River

Orderville Irrigation Co. was Represented by Aaron Reese, Secretary & Board member
Mt. Carmel Irrigation Co. was Represented by David Stevens, President
Glendale Irrigation Co. was Represented by Marcelloous Johnson, President
David L. Foote was Represented by William M. Keller & Warren C. Foote

David Stevens took charge of meeting -

A majority of water users were represented -

Main purpose of meeting was to recommend a water Commissioner, outline his duties & responsibilities; Set his wages & means of collecting wages.

David Stevens nominated Sharon Lamb for water Commissioner, nomination was seconded by Marcelloous Johnson & passed unanimously by all present.

The duties of the water Commissioner are to check & watch the water situation; He should be responsible only to representatives of water Companies & independent water users.

Motion was made by Warren Foote & seconded by William Keller ^{passed unanimously by all present} that a rate of five cents (\$.05) + \$1.00 per hour be paid & that the Commissioner keep dated, detailed account of time & mileage (the trips he makes, where to, the amount of time spent, etc.).

Motion was made by Marcelloous Johnson, seconded by Warren Foote & passed unanimously by all present that the expense be distributed equally among the water users of the Long Valley Creek, according to water owned.

minutes were read & Accepted by all present.
